# Gateway (Web & Mail) Security Solutions for Managed Service Providers

Trend Micro Gateway Security Solutions deliver IT perimeter security and real-time visibility needed to safely manage the full range of standalone, blended-threat, and customer-specific attacks, both at the exposure layer and infection layer.

Trend Micro consolidates the best security elements into each of its Web and mail gateway solutions for maximum effectiveness. Flexible deployment options ensure that these solutions fit easily into existing network infrastructures and reduce the complexity of security management.

## Mail Gateway

Trend Micro Mail Gateway Solutions integrate award-winning anti-spam, anti-phishing, and anti-malware protection to stop unwanted mail and blended threats before they enter your network. These solutions also offer inbound and outbound content filtering to preserve resources and productivity while preventing data loss and compliance violations.

## Web Gateway

Trend Micro Web Gateway Solutions leverage both local and in-the-cloud security information to protect HTTP and FTP traffic against web-based attacks. Award-winning antivirus, anti-spyware, and Web reputation scanning collaborate to block access to malicious pages or links, prevent spyware downloads, and detect spyware activity on clients. By filtering "inappropriate" sites, companies can significantly reduce the risk of HR legal liabilities due to non-work-related Web content.

## KEY FEATURES

### Maximizes Protection

- Stops malware and spam at the perimeter
- Delivers immediate protection from emerging threats with in-the-cloud email and Web reputation
- Supports regulatory compliance with leading content filtering, anti-malware, and encryption

### Minimizes Complexity with Virtual Appliances

- Cuts datacenter and admin costs by 40 percent
- Simplifies deployment and maintenance
- Optimizes performance
- Supports heterogeneous deployments on preferred hardware

### Reduces Costs and Risk with Comprehensive Security

- Improves productivity with #1 rated anti-spam and Web filtering
- Ensures a safe Web experience by blocking infected and inappropriate websites

### Award-winning Anti-spam

- Stops spam and unwanted content before it can enter a network with #1-rated anti-spam and Web filtering

## THREAT PROTECTION

- Web threats
- Spam and phishing
- Inappropriate content
- Viruses, spyware and Trojans
- Legal liability
- Data loss

## KEY BENEFITS

### Immediate Protection

Breaks the infection chain by blocking access to malicious files and websites

### Reduce Business Risks

Prevents infection, identity theft, data loss, network downtime, lost productivity, and compliance violations

### Lower Resource Expenditure

Reduces IT management costs through award-winning, automated protection and maintenance

### Additional Recurring Service Revenue

Increases the average revenue per customer; high retention rate means solid recurring and predictable service revenue

### Pay-as-you-use Licensing and Pricing

Service Provider pays only for the number of licenses used during the previous month

### Flexible Payment Schemes

Flexible usage-based pricing easily aligns with your business model and billing cycle

### Improved Cash Flow and Reduced Financial Risk

Zero start-up cost and no up-front investment needed

### Unparalleled Support

Extensive, award-winning global support network ensures that you and your customers are supported at all times

Maximum Protection and Minimum Complexity at the Gateway	
Multi-layered Protection	Advantage
<b>GATEWAY</b>	
InterScan Messaging Security Virtual Appliance	Virtualized email gateway security stops spam, phishing and email threats

Trend Micro Encryption for Email Gateway	Virtualized email gateway security encrypts email content and file attachments
<b>MANAGEMENT</b>	
Trend Micro Advanced Reporting and Management for Web Security	Centrally manages security

**GAIN COMPETITIVE ADVANTAGE**

The Service Provider Usage-based License Program (SPULP) enables Service Providers of all kinds to take advantage of leading security solutions from Trend Micro with the pay-as-you-use payment and subscription model. This payment model is designed to align with your business models and help them deliver scalable security solutions over the Internet. Through SPULP, we can empower Service Providers targeting business of all sizes to offer attractive and profitable managed services cost effectively.

**TREND MICRO SMART PROTECTION NETWORK**

Trend Micro Managed Service Provider Gateway (Web & Mail) Security Solutions are powered by the Trend Micro Smart Protection Network, a next-generation cloud-client security infrastructure designed to protect customers from Web threats.

The Smart Protection Network powers both on-premise and hosted solutions to protect users whether they are on the network, at home, or on-the-go, using lightweight clients to access its unique in-the-cloud correlation of email, Web and file reputation technologies, as well as threat databases. Customers' protection is automatically updated and strengthened as more products, services and users access the network, creating a real-time neighborhood watch protection service for its users.

**TRENDLABS**

Trend Micro Incorporated, a global leader in Internet content security, focuses on securing the exchange of digital information for businesses and consumers.
